

Project Initialization and Planning Phase

Date	04 July 2026
Team ID	
Project Name	HDI Predictor Using Machine Learning
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A government policy analyst / researcher	Predict the Human Development Index (HDI) of a country accurately	Manual analysis of multiple socioeconomic indicators is timeconsuming and prone to errors	Decisionmaking requires reliable and quick predictions based on historical data	Confident that AI-powered predictions can support better planning and policy decisions
