

Problem-Solution Fit

Date	04 July 2026
Team ID	
Project Name	HDI Predictor Using Machine Learning
Maximum Marks	5 Marks

Problem-Solution Fit Canvas:

Use the framework below to ensure your proposed solution accurately addresses the root causes, behaviors, and limitations of your target audience. Fill out the canvas in the respective boxes just like the original visual template.

1. CUSTOMER SEGMENT(S) [CS] Government Policy Makers Researchers Students NGOs Development Analysts	6. CUSTOMER LIMITATIONS [CL] Limited technical knowledge. Limited computational resources. Time constraints. Dependence on historical reports.	5. AVAILABLE SOLUTIONS PROS & CONS [AS] Pros UNDP reports are reliable. Existing statistical tools provide accurate analysis. Cons Manual interpretation required. No instant prediction. Time-consuming process.
2. PROBLEMS / PAINS + ITS FREQUENCY [PR] Manual HDI calculation is time-consuming. Difficult to analyze multiple socio-economic indicators	9. PROBLEM ROOT / CAUSE [RC] Large amount of socio-economic data. Manual data analysis. Lack of automated	7. BEHAVIOR + ITS INTENSITY [BE] Frequently analyzes development indicators. Compares multiple countries.

together. Frequent need for quick development assessment.	prediction tools. Complex relationships between HDI indicators.	Requires quick and accurate predictions.
3. TRIGGERS TO ACT [TR] Need to evaluate a country's development. Requirement for fast HDI prediction. Data-driven policy planning.	10. YOUR SOLUTION [SL] Develop a Machine Learning-based HDI Predictor using Python, Scikit-learn, Flask, and HTML/CSS that predicts the Human Development Index from socio-economic indicators and classifies the result into Low, Medium, High, or Very High HDI through an easy-to-use web application.	8. CHANNELS OF BEHAVIOR [CH] ONLINE Government websites UNDP reports Kaggle datasets Research portals
4. EMOTIONS BEFORE / AFTER [EM] Before Confused Frustrated Uncertain After Confident Satisfied Informed		OFFLINE Academic reports Government publications Policy meetings
