

Demonstration of Proposed Features

Date	04 July 2026
Team ID	
Project Name	HDI Predictor Using Machine Learning
Maximum Marks	1 Mark

Demonstration of Proposed Features:

This document captures all the features that were proposed during the project planning phase and tracks whether each feature was successfully implemented and demonstrated. It serves as evidence of the team's ability to deliver on the proposed solution.

S.No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	User Input Interface	Accepts life expectancy, expected years of schooling, mean years of schooling, and GNI per capita as input.	Implemented	Yes	Successfully demonstrated.
2	Data Validation	Validates user input before processing the prediction.	Implemented	Yes	Prevents invalid input values.
3	HDI Prediction	Predicts the Human Development Index using the trained Linear Regression model.	Implemented	Yes	Generates accurate HDI score.
4	HDI Category Classification	Classifies the predicted HDI into Low, Medium, High, or Very High.	Implemented	Yes	Based on standard HDI thresholds.
5	Result Display	Displays the predicted HDI score and development category on the result page.	Implemented	Yes	Results shown instantly after prediction.
6	Responsive Web Interface	Provides a clean and user-friendly interface using HTML, CSS, and Flask.	Implemented	Yes	Successfully demonstrated during testing.

Feature Implementation Summary:

Total Features Proposed	6
Total Features Implemented	6
Total Features Demonstrated	6
Overall Implementation Rate (%)	100%
